Defence Components

Pivot Fabrique Established in 1973 Industry Automotive Components Manufacturing

Overview: Pivot Fabrique has been a leader in manufacturing world-class automotive components since 1973. Our commitment to quality and innovation has made us a trusted name in the industry.

Capabilities: We specialize in developing precision components tailored to the custom requirements of our clients. Our state-of-the-art in-house designing capabilities, utilizing tools such as Solid

Works and AutoCAD, enable us to design custom components based on customer inputs and specifications. We can also develop components from client-provided drawings and offer reverse engineering services to recreate or improve existing parts.

Manufacturing Facilities:

Mohali, Punjab (Plant 1): This plant features a covered area of approximately 1,20,000 sq ft, equipped with advanced machinery and technology.

Mohali, Punjab (Plant 2): Another strategically located facility to ensure efficiency and productivity.

Nalaghar, Himachal Pradesh: Our third plant, situated in the industrial hub of Nalaghar, supports our extensive manufacturing operations.

Services:

Custom Component Development: Design and manufacture components to precise client specifications.

Reverse Engineering: Analyze and replicate or enhance existing components.

In-house Design Expertise: Advanced CAD tools (SolidWorks and AutoCAD) for accurate and efficient design solutions.

Commitment to Quality: At Pivot Fabrique, quality is at the core of everything we do. Our rigorous quality control processes ensure that every component we manufacture meets the highest standards of performance and reliability.
